CUMULATED SUBJECT INDEX TO 1980

December 1983.

LETTER OF TRANSMITTAL

Since 1970, the Boreal Institute for Northern Studies has compiled Updates to J. Lotz's original Yukon Bibliography, which was published in 1963. These Updates have been published with financial assistance from the Yukon Government.

By 1982, seven volumes had been published, each with its own author and subject index. There was an obvious need for cumulated indexes. However, these could not be funded from the Yukon Government grant as that was fully used with the continuing compilation of further Updates.

Through the Alberta Government's S.T.E.P. (Summer Temporary Employment Program) it was possible to hire a student during May to August 1983, who compiled this cumulated subject index under the guidance of Mrs. G.A. Cooke, the Institute's Head Librarian.

We at the Boreal Institute for Northern Studies are particularly pleased with the quality of the work provided by the summer student, Miss Janet MacDonald. The Institute is grateful to the Alberta Government for assistance provided through the S.T.E.P. grant, without which this index could not have been produced.

The record would be incomplete without acknowledging appreciation to Ms. A. Moore in arranging for printing and binding of the publication, and to Ms. R. Minion, Assistant Librarian, who shared in the supervision of this project.

INTRODUCTION

This cumulated subject index was compiled from the individual indexes in the Yukon Bibliography Update series through to the Update for 1980, (Boreal Institute for Northern Studies Occassional Publications 8-1 to 8-7), using text editing programs available on the University of Alberta computer. Any inconsistencies and errors noticed in the original indexes have been corrected.

In using this index it should be remembered that the capital letter part of each entry (e.g. D-125) can be a guide to the general subject matter of the item. A listing of each broad subject category and its appropriate letter is given on page v.

In addition, indexes to specific geographic features, e.g. lakes, mountains, etc. and to other groupings, e.g. biographies, Indian groups, have been culled from the full subject index and listed seperately.

It is hoped that this cumulated index will help in the use of the individual volumes. It is planned to cumulate indexes to future volumes as needed. Any comments regarding format and content would be appreciated by the editor.
